### LOCAL NEWS ITEMS

Mr. and Mrs. Buck have left on a  
vacation trip.

Two very fine deer are residing in  
the B. Mensinger flax field.

Russell Collier has secured the po-  
sition of teacher at Plateau school,  
near Lomond.

Mr. Craig is looking pathetically  
lonesome. Let us hope the family  
soon returns.

Mr. and Mrs. Charlie Stagg, Miss  
Osborne, W. Brown and Miss Marjorie  
Schenck motored to Okotoks on  
visit Mrs. Stagg's mother.

Mrs. A. J. Kennedy and son, Billy,  
left Tuesday for Tacoma, Wash., to  
visit her sister, Mrs. J. Macgregor  
Kennedy.

K. R. McLean of McLean & Anderson,  
Sight Specialists, 224 8th Avenue West,  
Calgary, visits the King Drug Store, Sat-  
urday, August 30. Make appointments at  
the Drug Store.

Mrs. Sperry and daughter Peggy,  
Bert Purdie, Mrs. Alma Syhge and  
Marjorie, motored to Golden, B.C.  
Dallas Sperry and Miss Opal Hansen  
went as far as Calgary with them.

Mr. L. H. Stack returned this week  
from an enjoyable vacation trip to  
Nova Scotia. The family remained  
in the east but will be in Vulcan for  
school opening.

Mr. Frank Base has taken up land  
fifteen miles from Wembley. He is  
well pleased with the north land and  
will apply himself to the soil and  
carve a home out of the wilderness.

Mr. Bright Robinson has moved  
with his family into Dr. Wilson's  
house. He is taking over the man-  
agement of the Independent Elevator  
in place of Andy Low who has moved  
to Vulcan—Carmangay Sun.

There will be a regular meeting of  
Vulcan Lodge, No. 121, B.P.O.E. in  
the L.O.O.F. hall on Monday evening.  
The newly decorated dining room  
at the Imperial hotel was opened for  
service to the public this week.

Grace Andrews, Edwin Nelson,  
Harold Harriman, Harriet Discher,  
Freddie Noise and Andre Johnston  
attended the two day agricultural  
college reunion, reporting a good time  
which was enjoyed by all.

At the Calgary-Okotoks Women's  
Institute Conference, Mrs. E. Bird,  
Aldersyde, was elected convener of  
legislation committee, Mrs. A. W.  
Roland, Aldersyde, League of Na-  
tions and Mrs. R. G. McKeage, Din-  
ton, Convener of Agricultural com-  
mittee.

Teddy Mutz Jr., entertained on the  
occasion of his fourth birthday, sev-  
eral of his playmates. His home was  
the scene of great hilarity during  
the hour, for frolic. Refreshments  
were served and the table was beau-  
tifully decorated, yellow being the  
chief in the color scheme. Yellow  
baskets with snapdragons, yellow can-  
dles and cakes iced with yellow.

Mr. R. Eisenach of Wisconsin was  
a visitor in town at the week end.  
Bob is an old timer of this district,  
having homesteaded with Alex. Bow-  
ie and Billy Peterson when there was  
nothing between High River and the  
locality now known as Vulcan; he has  
not been here for five years and old  
time friends are glad to shake his  
hand.

The lad had gone with his father,  
George Green, a short distance in the  
country to the premises of Lou Sea-  
man, where the men were to fix a  
pump. There was in the farm yard a  
calf tied with a long rope to a stake.  
The lad grasped the rope which was  
slack, and the calf in fright, dashed  
to the limit of the tether, casting the  
boy with much force against a wagon,  
with the result as described.

Much sympathy is expressed with  
the unfortunate boy and his parents.

### BACKING BOTH

An English cartoon gives one con-  
ception of Lord Beaverbrook's atti-  
tude toward Canadian election re-  
sults. Although it was recognized  
that the Empire Free Trade party  
was beaten, Lord Beaverbrook claims  
that the victorious party supports  
his policy. So the cartoon shows  
Bennett and King in a boxing match  
with Lord Beaverbrook massaging  
Bennett's muscles with one hand and  
holding a bottle of smelling salts to  
the recumbent figure of Mr. King.

### PALLBEARER DIES SOON AFTER RITES

Referring to the death in that city,  
of Mr. J. T. Butler, a former trades-  
man of Vulcan, the Spokesman-Re-  
view, Spokane, says:

Returning to his office in the Hyde  
building Saturday after attending the  
funeral of a life-long friend, Mrs.  
Catherine Morgan, at which he had  
been a pallbearer, Thomas J. Butler,  
69, real estate man, dropped dead. He  
had suffered a heart attack. Dr. E.  
E. Loffler, in an adjoining office, was  
called, but the doctor died instantly.

Mr. Butler who resided at 82319  
Manito, was present when Mrs. Mor-  
gan was married in the east many  
years ago. She died Thursday at the  
home, 1907 Bridgeport. After the  
services at St. Aloysius' church and  
the burial, Mr. Butler went to the  
residence with his wife to console  
relatives then started out in his car to  
go to his office.

He died a few moments after he  
had opened his desk. The white ear-  
nation, worn by the pallbearers as an  
emblem, still was in his buttonhole.  
The strain of attending the funeral  
may have brought about the heart at-  
tack, it was said.

Mr. Butler was a native of Boston.  
He went to Vulcan, Alberta, when a  
young man and engaged in the har-  
ness business for several years. He  
was in the real estate business when  
he came to Spokane 13 years ago. Re-  
cently he was elected president of the  
Wisconsin club. He was ill last win-  
ter with heart trouble, but recovered  
satisfactorily.

In addition to his widow, Anna G.,  
at the home, Mr. Butler leaves one  
son, Mel Butler of Spokane; three  
brothers and one sister in Massachu-  
setts and two grandchildren.

### HOCKEY

With the holiday season just about  
over, the talk now turns to the pros-  
pects of a Senior Hockey Team for  
Vulcan. According to latest reports,  
if the local hockey fans will get be-  
hind the movement, there is no doubt  
but that Vulcan will have one of the  
best teams in all her hockey history.  
Already the local promoters have had  
a host of inquiries from players wish-  
ing to try out with the team. By the  
building of the gravelled highway to  
link up with the highway to Calgary,  
the transportation difficulty has been  
got over and it only now remains for  
some agreement to be arrived at re-  
garding the rink when the Vulcan  
team's admission to the senior league  
will be an accomplished fact. In the  
meantime it will serve no good pur-  
pose to divulge the names of the var-  
ious players proffering their services  
but when the list is published, which  
will be soon, the local fans will open  
their eyes and wonder where the  
stars were discovered. Boost for a  
hockey team and you will have one  
that will spring some surprises. Talk  
hockey, think hockey, and boost, boost  
boost.

### ST. ALDHELM'S CHURCH

Holy Communion 8.30 a.m.; Sunday  
school 10.00 a.m.; Holy Communion  
11 a.m.; evensong 7.30 p.m.

There will be a service at Union  
Jack school at 3 p.m.

Rev. D. F. Kemp will be in charge  
of all services, having returned from  
St. Augustine's, Lethbridge, where  
he was relieving during the month of  
July.

Crop conditions have improved since  
the recent rain.

### LOCAL BOY INJURED

Willard Green, aged 14, son of Mr.  
and Mrs. George Green of Vulcan,  
met with a serious accident on Thurs-  
day last, and was treated at the Vul-  
can Municipal Hospital for a smashed  
cheek bone and an injured eye.

The lad had gone with his father,  
George Green, a short distance in the  
country to the premises of Lou Sea-  
man, where the men were to fix a  
pump. There was in the farm yard a  
calf tied with a long rope to a stake.  
The lad grasped the rope which was  
slack, and the calf in fright, dashed  
to the limit of the tether, casting the  
boy with much force against a wagon,  
with the result as described.

Much sympathy is expressed with  
the unfortunate boy and his parents.

## LOMOND SUMMER FAIR AGAIN ACHIEVES SUCCESS

Lomond Agricultural Society reg-  
istered another gratifying success in  
the fourteenth annual exhibition held  
last Thursday and Friday. The en-  
tries exceeded in number, those of  
last year and the attendance was al-  
most up to average. President Fred  
Hart secretary treasurer Mrs. Belle  
Adams and their associate workers  
were the recipients of hearty con-  
gratulations. The list of prize winners  
will appear in our next issue.

### ENSIGN NEWS

Messrs. H. S. and A. B. Parker were  
in Calgary on business Monday.

A large number of Ensign people  
attended the Vulcan Chautauqua last  
week.

C. A. Dunning denies that he will  
return to Saskatchewan provincial  
politics.

Mrs. Boyd is spending her vacation  
at the home of her daughter, Mrs. P.  
O'Dwyer.

Mrs. Piercy and two children of  
Calgary are visiting at the home of  
Mr. and Mrs. J. Ferguson.

Dave Smith the local teacher, re-  
turned to Ensign Friday after spend-  
ing a month at the home of his par-  
ents in northern Saskatchewan.

Mr. A. M. Meyers had the misfor-  
tune of having his truck destroyed by  
fire on Friday night, a few miles east  
of Blackie.

Mr. and Mrs. G. J. Fisher and  
daughter of Tacoma, Wash., are vis-  
iting at the home of Mr. and Mrs.  
J. N. Dwigans.

Mr. and Mrs. A. McIntyre and  
daughter of Pendleton, Ore., are vis-  
iting for a few days at the homes of  
Mr. McIntyre's brother Peter and  
Duncan. Mr. McIntyre was the man-  
ager of the first store in Brant and  
is an old timer in this district. Be-  
fore leaving for home via Banff they  
will visit friends and relatives at  
Nanton.

### UNITED CHURCH

Mr. Wm. McDaunold, B.A. of St.  
Stephen's College, Edmonton, will  
conduct the regular services, at the  
United Church, next Sunday, August  
10th, morning and evening and at  
Berrywater at 2.30 p.m.

Rev. J. N. Brunton will be in Milo  
conducting special baptismal services.

### REID HILL SCHOOL FAIR

The following contributions in aid  
of the Reid Hill school are grate-  
fully acknowledged:

Reid Hill Women's Institute \$20.00  
Hon. O. L. McPherson \$5.00  
F. E. Osborne, Calgary \$3.50  
(football)  
Blue Ribbon Baking Powder Co.  
3 Cans of Baking Powder.

### MILO NEWS

Saskatchewan received its natural  
resources on August 1.

George Vennistland has returned  
from a business trip to Chicago.

Carman Watt has installed a Gen-  
eral Electric refrigerator in his home.  
J. Gilchrist while unloading a grain  
truck on Friday, slipped therefrom and  
in falling broke his arm above the  
wrist. He is improving rapidly.

Harvesting operations commenced  
in this district on August first and on  
Saturday many binders were at work.  
Farmers who have combines are anx-  
iously waiting for their fields to fully  
ripen and meanwhile the fear of hail  
storms is causing them to worry. The  
crop outlook is not as good as in past  
years, for moisture has not been suf-  
ficient in most districts to produce a  
good crop. Crops on summerfallow  
are not bad, but that sown on stubble  
land is discouraging. Wheat, barley  
and oats are filling well and a very  
good quality of grain will be obtain-  
ed. Very little labor will be required  
is sufficient harvest help is practi-  
cally on hand, to handle this year's crop  
which is not heavy.

## TOWN OF VULCAN

# :-NOTICE:-

In case of fire, will drivers of automobiles, trucks,  
etc., please extend the courtesy of the road to the fire  
trucks, and so avoid accidents.

Also, will the public please keep off the fire trucks  
when going to a fire, and keep away from the appara-  
tus when at a fire, unless they are requested to assist.

Your co-operation in this direction will be appre-  
ciated.

TOWN OF VULCAN

### CANDID OPINION

The Canadian Press has told us lit-  
tle of the Progressive campaign in  
the West. Their leader, Gardiner,  
has been elected by acclamation. Lo-  
cal papers shows they have been con-  
ducting a vigorous fight, in which  
they are lambasting the Eastern busi-  
ness interests. As a matter of fact,  
the East is really most sympathetic  
with them in many policies and hopes  
to see all their good men re-elected.  
They have been a healthy influence in  
the House.—Financial Post.

### DEATH OF YOUNG GIRL IS MUCH REGRETTED

Jean McElroy, only daughter of  
Mr. and Mrs. Robert McElroy of  
Blackie, passed away in the hospital,  
High River, at 6:20 o'clock on Sunday  
evening following an operation for  
appendicitis. Jean, who was just fif-  
teen years old, was born in High Ri-  
ver on February 9th, 1915, was a gen-  
eral favorite and her death is a great  
shock to the whole community. She  
had just received notification of hav-  
ing passed with high standing her  
Grade XI examinations and was look-  
ing forward to attending Crescent  
High in Calgary. She had spent last  
week in Vulcan visiting her brother,  
Mr. Robert McElroy Jr. (a valued  
member of the "Advocate" staff)  
where she had a happy time with  
friends and kin. Upon her return  
home she was taken ill and removed  
immediately to the hospital by Dr.  
Murray. The funeral took place from  
the United Church, Blackie, yesterday  
Wednesday afternoon, and was very  
largely attended. Much sympathy is  
being extended to the family in their  
great bereavement.

### MILO NEWS

(Too Late for Last Week)  
Mr. and Mrs. N. M. St. Peter and  
sons are on their vacation.

Mr. and Mrs. J. Martin returned  
from a motor trip to Portland.

Austin Chevalier left Wednesday on  
a vacation.

Mild welcomes Mr. and Mrs. Scott  
of Carmangay, the new U.G.G. agent.  
Mr. Gilchrist had the misfortune of  
breaking his arm on Saturday.

The Milo basketball team play  
against Lomond at the fair, Friday.  
Lomond won by a large majority.

Mr. and Mrs. Eric Shore returned  
Sunday from a vacation spent at Cal-  
gary and Banff.

A few farmers began cutting their  
crops on Saturday. Several others in-  
tend to begin on Monday.

Charley McIntyre had a runaway  
with his team. Mrs. McIntyre was  
hurt quite badly.

The July meeting of the Baptist  
Ladies' Aid was held at the home of  
Mrs. Schultz in Reid Hill.

Mrs. Roy Haggins and son Gerald,  
are visiting Pincher Creek and Wat-  
erton Lakes.

The Milo Young People's Society  
held a wiener roast at the Arrowwood  
bridge on Tuesday.

Lake McGregor has become a popu-  
lar resort these hot evenings, espe-  
cially with the young folks.

The United Sunday school held  
their annual picnic at Lake McGreg-  
or on Wednesday. A good time is re-  
ported.

A great improvement has been  
made in the service of the Alberta  
Government telephones. A new cop-  
per line has been installed to Gleich-  
en. This makes a copper connection  
from Milo to Calgary.

The electric lights were turned on  
in Queenstown at four o'clock on  
Wednesday and at seven o'clock in  
Milo. We have eight street lights  
and most of the buildings are wired.  
Mamie Messenger, Lorraine Sev-  
rens and Rodney Forsyth were visi-  
tors in St. Eugene Hospital at  
Cranbrook, B.C. after a serious acci-  
dent at the mills.

The Milo Hotel is now equipped  
with a Thor electric laundry equip-  
ment. Mr. D. Wilkinson of the Cal-  
gary Power merchandising depart-  
ment, High River, was here last week  
installing this important fixture.

Mr. Sutton of the Milo hotel, in  
company with Messrs. Munson, J. and  
F. Jacobson, returned last week from  
an interesting trip to the Peace River  
country. They made the trip by motor  
and found the roads in fair shape  
all the way to and from. The stand-  
ing of grain is uniformly good and a  
general good crop is expected. There  
will be yields of between 40 and 50  
bushels per acre. Mr. Sutton was  
surprised at the rapidity with which  
that country is being settled. In fact  
the Peace River country has arrived.  
They found very thriving and prosper-  
ous settlements and progressive  
owns and villages in the wake of  
their travels. Grande Prairie was a  
revelation to the Milo visitors. Here  
was an up-to-date city with stores  
and stocks of merchandise equal to  
that found in any of our larger cen-  
tres. The entire motor trip covered  
over 2200 miles.

## "You are wanted on the phone"

You are prompt to respond to the ring of your phone. The very idea that some one has a personal message for you intrigues your interest.

Has it ever occurred to you that back of every advertisement in this paper there is some one with a personal message for you? More often than not these advertisements were written with you in mind. It is impossible for most merchants and manufacturers to give you a phone call about their goods, their wares, or their services. So they pay us for the privilege of calling these things to your attention in our advertising columns.

Give an advertisement the same attention you give to a phone call. Many of them are just as important to you — and just as interesting. They will help you to economize and keep posted on news of vital interest to you and your pocketbook.

Don't lay this paper aside, without reading the advertisements.

..

THEY ARE PERSONAL CALLS FOR YOU

### The Vulcan Advocate

An Independent Weekly Newspaper issued every Thursday afternoon, at the office of publication, Vulcan, Alberta. Subscription price per year, in Canada \$2.00; United States and other countries \$2.50. Advertising rates furnished on request.

TOM WHITTINGHAM  
Editor and Manager

#### THE UPWARD CURVE

Onward and upward has been the political progress of Hon. R. B. Bennett, new Canadian Prime Minister. From humble beginnings, politically speaking, he has risen to his present eminence.

In the old Territorial Legislature at Regina, he was almost alone in opposing the Haultain government.

In the Alberta House of 1905, when he was heading his provincial party, he was defeated in Calgary.

In 1909, when he was elected to the Legislature he had only two supporters.

In 1911, he was the only Alberta Conservative to be elected to the Federal House. Disagreeing with the proposal to form a Union Government, he dropped out of political life in 1917. In 1921, he stood for election but was defeated. He carried his electorate however, both in 1925 and 1926. In 1927, he was declared by popular choice the leader of the Conservative party.

The stimulation which he has furnished the party, and the confidence reposed in him, is evident in his triumphant success at the recent election. He has carried his party to victory in a general election. Neither Sir Charles Tupper nor Arthur Meighen accomplished this. So Mr. Bennett now ranks with Sir John A. Macdonald and Sir Robert Borden as a successful election winner.

#### FIGHTER OR KILLER

While Private Peat's attack on war and the methods by which peaceful people unconsciously glorify war, may provoke much difference of opinion, may be open to dispute, yet his words contain germs of truth. He asserts that man is naturally a fighting animal, not a murdering animal, and we hope that this is true. There are such countless wrongs to be righted, so many parasitic human enemies to be fought; that it seems a ghastly waste of humanity for men to turn and rend each other.

Arch militarists see in continued peace, the menace of a sissy breed, and claim that blood-letting is a mark of virility. Virility is of little avail if it is to serve merely for mutual destruction. There could be no more disheartening outlook for mankind than the belief that the only avenues for demonstration of courage are through war. All constructive labor is a fight, calling for courage and faith and endurance. Every day opens to humanity new fields to consider. There are explorations and development in far places. There are incredible adventures in science, and in economic discoveries. There is an inexhaustible field ahead for constructive, courageous tasks which can try the mettle of a man quite as effectively as a blood war.

If there is war in our time, there can never be the excuse that man has nothing to fight but fellow man.

### WHERE IS RELIEF?

Trend of Times is Away from Manual Labor

The Lethbridge Herald points out the practical difficulty of putting laborers to work and keeping them working in this machine age. The trend of the times is away from man labor.

Harvesting is starting but with about 10,000 combines at work in Western Canada, that means there will be about 40,000 or 50,000 fewer harvesters used than five years ago.

Work is starting on a \$900,000 elevator in Lethbridge, but eight or ten men with trucks and machinery can do the excavating, where formerly 100 men would have been needed.

Southern Alberta highways are being gravelled, but machinery is everywhere from pit to road.

Machinery is being used in coal mines, so that one man today mines as much as two men mined ten years ago.

When a machine will replace the use of several men, modern methods demand the machine.

The real solution of unemployment lies in shutting the bars against immigration, during this machine-enforced period of re-adjustment.

We are not over-populated. But with unemployment rampant in every other country, Canada might become the mecca of teeming thousands.

For this reason in the next few years we must allow only those to come through our portals who are able to look after themselves and for whom Canada is able to provide a living of high standard.

### NOW IT CAN BE TOLD

Washington figures show that out of every 1000 Canadians going to the States, 842 return to Canada, 72 remain but retain their Canadian citizenship and only 86 become naturalized citizens.

Every year thousands of Canadians are entered on U.S. records as incoming settlers, but return to their native soil disillusioned. The officials however, at the borders are more concerned with incomers that outgoers, and it is in Washington that statistics are found of those actually remaining in that country.

In statistics compiled for the last fourteen years by the department of labor in Washington, the figures show a total of 1,235,051 Canadians admitted from 1918 to 1929. Of these 107,070 are recorded at the ports as returned, and 932,964 have returned without recording at boundaries. Of those remaining there are 88,904 who retain Canadian citizenship and out of the total 106,213 in the course of fourteen years have become naturalized American citizens.

These estimates which are considered to be as nearly accurate as it is possible to come, do not present such a formidable appearance.

Against the 106,213 Canadians who have become naturalized in U.S. during the past fourteen years, Canada can doubtless present a very healthy set of figures showing the number of U.S. settlers who have become Canadian citizens in the same period.

It is said that General McRae of Vancouver will succeed Hon. Peter Larkin as Canada's new High Commissioner in London.

### The Lure of the Maritimes

The Maritimes hold a proud and well-merited place in tourist popularity as well as being a favorite territory for holiday-makers from all parts of eastern Canada and United States. Their many sea-side resorts; quaint and beautiful little villages and snug towns dotted along the Bay of Fundy have a special attraction for those who wish to combine comfort with scenic beauty; golf and a wide variety of other sports with fishing and sailing; and the whole with modern and direct transportation.

St. Andrews-by-the-sea with its well known and excellent Algonquin Hotel. There, as at its more famous namesake in Scotland, is to be found one of the outstanding 18-hole golf courses in Eastern Canada where many a hard-fought championship has been decided. Again, take Digby on the Bay of Fundy. Set in some of the most beautiful, old-world scenery

in Canada, the Pines, recently opened hostelry, offers a wide range of entertainment including tennis, golf, sailing, fishing, hiking, horseback riding, motoring, swimming either in the sea or in the salt water pool with plate glass windscreens and promenade for spectators nestling under the veranda of the hotel. Good motoring roads give access to scores of quaint little villages, some of them, in the Evangeline country, scenes of historic incident and tragedy. Here too, the modern tourist will often meet the old-world ox wain taking its leisurely way down the country road. Lay-out shows hand-spring dive into the Pines Hotel pool; Evangeline country showing church and statue at Grand Pre; and section of course at St. Andrews.

## Conservative Party Wins Clear Mandate From Entire Country

With a clear working majority of 137 seats, Hon. R. B. Bennett enters the Premiership unchanged by effective hostile influence. Dominion-wide approval of his policies and promises expressed at the polls on Monday, greatly simplifies his labors. From all parts of the Dominion come his supporters, with confidence in his ability to carry out his policies in the interests of the country. For the first time since the war the government goes into office with a clear-cut majority. For the first time since the reciprocity election of 1911, Quebec has given whole-hearted support to the Conservative administration.

The latest summary of the 245 seats at Ottawa is as follows: Conservatives 137, Liberals 86, United Farmers 10, Progressives 2, Liberal-Progressives 3, Labor 3, Independents 2, Doubtful 2.

By Provinces—Alberta—Conservatives 4; Liberals 3, U. F. A. 3. Saskatchewan—Conservative 7; Liberal 12; Progressive 2. British Columbia—Conservative 7; Liberal 5; Labor 1; Independent 1. Manitoba—Conservative 11; Liberal 1; Labor 2; Lib-Prog. 3. Ontario—Conservative 59; Liberal 22; U. F. O. 1.

Quebec—Conservative 25; Liberal 37; Independent 1; Doubtful 2. New Brunswick—Conservative 10; Liberal 1.

Nova Scotia—Conservative 10; Liberal 4. P. E. I.—Conservative 3; Liberal 1. In Alberta—Conservatives elected were, Calgary—Dr. Stanley, gain from Labor; R. B. Bennett, unchanged; Edmonton East—A. Bury, gain from Liberal; Lethbridge—Brig. Gen. Stewart, gain from U.F.A.

Liberals—Athabasca gain from U. F. A.; Edmonton, Hon. Chas. Stewart unchanged; Medicine Hat—Gershaw, unchanged.

U.F.A.—Acadia—Gardiner, acclamation; Battle River—Spencer; Bow River—Gardiner; Camrose—Lucas; Macleod—Coote; Peace River—Kennedy; Red Deer—Speakman; Vegreville—Luchkovitch; Wetaskiwin—Irvin. These nine U.F.A.'s are unchanged.

### High Lights

Two Western Cabinet Ministers defeated were Dunning and Cregar. Dunning like Fielding in 1911, paid the penalty of his budget. Solicitor-General Cannon was beaten; Hon. Cyrus McMillan, minister of fisheries, must return to his McGill professorship. Hon. Kay, minister without portfolio was the fifth Cabinet Minister defeated.

On the other hand Conservatives suffered in the defeat of H. H. Stevens, Vancouver, and Major General McEae and Tommy Church of Toronto, whose defeat breaks the spell that long has held the sacred city.

Agnes McPhail again elected is the only survivor of ten women candidates.

The Conservatives have elected a round dozen of ex-Cabinet ministers, so need not lack for ministry. Robert Rogers again represents Winnipeg.

The wholesale turnover in the Maritimes and Quebec was laid to New Zealand butter.

Ontario juggled its members, both Conservatives and Liberals gaining new seats and a net result of six new seats to Conservatives.

Manitoba was the big win, with 12 seats as against none in 1926.

Vancouver on the other hand was the set back in a string of triumphs, that city giving three seats to Liberals and a fourth to Labor, all at expense of Conservatives.

### TIME IMPROVES

C. P. R. Official Thinks Conditions Are on the Upturn

The low point of the business depression so noticeable for the last year has been definitely passed and conditions are perceptibly on the upturn in recent weeks, in the opinion of W. M. Neal, general manager in charge of Canadian Pacific Railway Western lines.

A survey of crop conditions across the prairies, stated Mr. Neal, bears out the prediction that the Western Canadian wheat crop will be very close to 400,000,000 bushels, and the C.P.R. is making full provision for handling its share of the crop expeditiously. There are more grain cars in the west at this time, he continued, than at any time in the history of the road, and these will be pressed into service so soon as the crop is ready to move to market.

Weekly reports of the company, he said, indicate that in the other major freight lines, the tonnage is gradually increasing, and that the gains will continue until the traffic along with other business conditions, returns to normal after the depression of the past year.

The Canadian Pacific, Mr. Neal continued, is continuing all its building projects and is carrying on with its branch line programme throughout the west in the confident expectation that developments in the near future will fully warrant the expenditure being made.

### PRESS COMMENTS

Attitude of British and U.S. Papers on Government Turn Over

The London Daily Express says: "Canada has decreed that in Imperial matters, sentiment and economies shall be equal partners. King in his campaign met definitely hostile factors: (1) time of depression; (2) inability to sell wheat to Britain; (3) Canadians understand a bargain better than a gesture. In the circumstances the Canadian electorate turned to R. B. Bennett and empowered him to bargain for the Dominion. A realist Canadian government stands ready to do business with us. Have we no one to send into conference with them but faint hearts or fanatics?"

The Beaverbrook papers are inclined to claim Bennett's victory as a vote for Empire Free Trade.

In view of Mr. Bennett's promised schemes for dealing with unemployment, official circles in England are speculating on the possibility of postponing the Imperial Conference.

America's papers express fear of a Canadian-U.S. tariff war.

The New York Times: "For Americans, the importance of the election is that the Dominion is lurching back not only to the Conservative party, but to protective duties aimed at U.S. Washington is disturbed by this threat of a tariff war. If it comes, it has been provoked by the Fordney tariff, and the Hawley-Smoot tariff. The resultant feeling against U. S. has been the contributing cause in electing a Minister pledged to hit American exports as hard as Canadian exports have been hit."

The New York World says: "Our new tariff undoubtedly aided in rolling up for Canadian Conservatives a majority. They propose tariff revisions not for Empire but for Canadian trade. That U.S. will lose export trade through legislation to which Conservatives are committed seems certain."

### AN ELECTION YARN

An old timer in Southern Alberta has been recalling early election days in the North West Territories. He was in Indian Head in 1884 when Senator Perley was elected for the Territories. Everyone who voted had to be a householder, and to prove he was a householder he had to show the key to his dwelling house.

There was only one key in Indian Head, so they had to send to Brandon for two dozen keys to pass round. Word came back that there were not two dozen keys in Brandon, but they would try to scrape up a dozen and send them on.

When voting commenced the question was asked "Householder?" "Yes," "Show your key." The key was produced and the vote recorded. As each man passed out, he slipped his key to the next fellow. All went smoothly. But the real joke was that all of them were living in tents.

### LORD BE THANKII

Although July and August are considered quiet months with little activity, particularly this year, yet they are not the most worrying of months. The cost of living which bows the shoulders of the householder, is in summer time reduced to a minimum. It is a pleasure to open the gas and electric light bills and contrast them with the winter toll. The gardens are yielding abundantly, new vegetables coming on daily and people almost "live off their gardens."

In the matter of fruit, local people have been making splendid use of the Saskatoons ripening in profusion near town and in the country. Sugar is at a lower price than for many years, and the thrifty housewife has made use of the natural fruit of the prairie to stock up her preserving shelves.

The weather calls for a minimum of clothing, and the constant demand for new boots and new sweaters, is for these two months at least, in abeyance.

So although there is less work and fewer sources of income, there is also the minimum of outlay in order to keep alive.

Naturally, these summer months are correspondingly slow amongst the business men. But their time is just ahead.

A few weeks from now there will commence for the family man, the dreary round of heavy winter clothing, of big grocery and meat bills, of mounting gas and light charges. The summer months are merely his little breathing space.

Ballots have been issued to all Saskatchewan wheat growers who are Wheat Pool shareholders and under contract. These are in reference to the 100 per cent. compulsory pool, proposed in the province.

Growers are asked to vote on the question of whether they favor the board of directors asking the government to pass a marketing act, providing that all Saskatchewan grain be marketed through one pool.

All ballots must be returned by September 1.

### BEEF IN U.S.

In Spite of Tariff American Stockmen No Better Off Than Before

Although per capita consumption of beef has risen in Canada, it has decreased in United States. A few years ago, Americans were consuming 80 pounds per head annually, now it is down to 50 pounds. Beef is the only food not in excess production.

All attempts at popularizing beef seem to have failed of complete success. Americans have got off the notion. For one thing it is more expensive on the bill of fare than ham and eggs, and for another thing it can be more easily mishandled in the operations of inexperienced cooks.

The high tariff which keeps out a few Canadian cattle has not improved conditions.

A few reasons have a bearing on the situation. There is a steady persistence on the part of many to market big steers in spite of the trend of demand for young beef. Chicken hatcheries have multiplied, launching fowl on the market. Cheaper pork, lamb and mutton, all cut in. A continued state of industrial inactivity, which reduces buying power. Persistent maintenance of high prices amongst retailers, and a general use of the meat grinder.

Although the producer finds his profits greatly cut, there is no corresponding downward curve in the retail market. The result is that many families find it a semi-luxury. Although beef appears to be the most natural meat food for human beings, they have been led steadily to turn to other meats.

There is too much difference between the price at the stock yards and the price to the consumer.

This one point that must be corrected before U. S. stockmen can profitably produce beef. It is their only hope of increasing their market.

### HAPPY TO PART

An incident in Calgary last week indicates that some of our immigrants are quite as anxious to get back home as we are to have them go. A young Hollander, treated himself to a meal in a city restaurant, and then announced that he had no money and suggested that they call for the police. The proprietor refused to do so, so the next day the Hollander arrived at the same restaurant with a bunch of friends, all of whom partook freely, and again it was announced that they had no money to pay, and the police had better be called. The Hollander explained same court, also wished to be sent in court that he committed his crime of false pretenses in the hope of being deported. A young Dane in the

If a check-up on recent immigrants were made, there is no doubt that many of them would be found to be extremely anxious to get back to their native lands. Canada as a rosy land of hopes fulfilled must be something of a frost.

It might be a good stroke of business in the long run, to establish a practical system of assisted deportation. Apparently we have more people than we can take proper care of. Some are anxious to return from whence they came. Why not spend a little on helping them to get there decently instead of forcing on them the alternative of committing crimes in order to appear in a police court, in order to get free board in jail. One way or other the county has to pay?

## VULCAN SCHOOL DISTRICT NO. 1902 Notice to Burgesses

A Poll of the Burgesses of the above School District will be held **Monday, August 11th**, for the purpose of taking votes for or against the addition of teaching Grade XII in the High School. The poll will be located at the Municipal Office, Vulcan and will be open from nine o'clock to twelve o'clock in the forenoon and from one o'clock to five o'clock in the afternoon.

### A PUBLIC MEETING

Will be held in the school building on **Friday evening August 8th**, for the purpose of discussing this question.

### HELP TO HOMEMAKER

For the married man who thinks he cannot get along without a drink, the following is suggested as a means of freedom from the bondage of the bootleggers.

Start a saloon in your own home. Be the only customer. (You will have no license to pay). Give your wife ten dollars to buy a gallon of whiskey, and remember there are 69 drinks in a gallon. Buy your drinks from no one but your wife, and by the time the first gallon is gone she will have \$23.50 to put in the bank and \$10.00 to start business again. (She can throw in two drinks on the house). Should you live ten years and continue to buy booze from her, and then die with snakes in your boots, she will then have enough money to bury you decently, educate your children, buy a house and lot, marry a decent man and quit thinking about you entirely.—Exchange.

### PRINCE TELLS ONE

The Prince of Wales at a golf gathering lately, shuffled through his store of golf stories and produced two very good ones. Here they are:

"We have a good many motor accidents in this country. I do not know whether they are due to bad motors or to bad drivers, but anyway a small boy witnessing an accident during a week-end was put into the witness-box.

"The judge asked him: 'Do you know the nature of an oath?' 'Yes, my lord,' said the boy, 'don't I caddy for you?'

"Then to illustrate the great concentration necessary in golf there was a very rare occasion when an enthusiastic golfer arrived home in dinner. He sat down to dinner with his wife and his boy, and his wife said: 'Willie tells me he caddied for you this afternoon.' 'Dear me,' said the golfer, 'I thought I had seen that boy somewhere before.'

## SUNSHINE TRAIL

Hon. O. L. McPherson Speaks to Din-  
ton and Blackie on Reasons for  
Sunshine Route

A well attended meeting of Dinton  
ratepayers and Blackie residents was  
held in Blackie last Thursday for the  
purpose of hearing the statement of  
Hon. O. L. McPherson regarding the  
selected route of the Sunshine Trail.  
This route turns west at the Union  
Jack school, 12 miles north of Vulcan  
following the correction line west, de-  
touring slightly at the Big Lake, and  
direct to High River.

Mr. McPherson pointed out that  
consultations with the municipalities  
involved had been going on for two  
years. This chosen route was the  
most feasible, serving the greatest  
area. It must be borne in mind that  
the roads are not built entirely for  
the immediate district. There is the  
traffic that comes to the boundaries  
of every district and must have ready  
outlet. All roads that the province  
builds are of general, not merely local  
concern, and even the so-called local  
roads must be regarded in this  
light. These roads must be built, and  
the building of the road is a small  
thing in comparison with the main-  
tenance.

The government has been charged  
with building for tourist traffic. That  
this is an unfounded charge, is shown  
by a check-up on the cars travelling  
the main highway. Ninety-five per  
cent. of the cars travelling these high  
ways are Alberta cars, and even on  
the great tourist road to Banff, 85  
per cent. are also Alberta cars. The  
roads are being built for and being  
used by the people of this province.

In the matter of this portion of the  
Sunshine Trail, the surveying is all  
completed, seven or eight crews are  
at work on the grading.

Mr. McPherson also called atten-  
tion to several points regarding the  
certain amendments to the Municipal-  
ities Act governing roads. It is with-  
in the rights of the Council of a M.D.  
to decide on the routing of a road, as  
a vote of the district would be impos-  
sible.

A gain, regarding government  
standard roads, all district roads are  
passed by the government engineer,  
before grants can be obtained. After  
the standard grade has been complet-  
ed according to approval, the govern-  
ment also shares the cost of the later  
grading.

## PRACTICAL B. C.

People Are Promoting Buying of  
Home Products

British Columbia Women's Insti-  
tutes have always been interested in  
promoting the buying of home pro-  
ducts. This was shown in the very  
material way of getting behind a  
"Buy in British Columbia Week" in a  
series of campaigns in various parts  
of the province, undertaken through  
the co-operation of the manufacturers  
and producers, distributors, retailers  
and press of this province. In many  
places the Women's Institute was  
largely instrumental in arousing local  
interest in the merchants and pur-  
chasing public. This they did by offer-  
ing prizes for the best window dis-  
plays of B. C. products, by supporting  
expert speakers on this subject and  
urging upon all members and women  
shoppers to buy at home first.

## BE GOOD SOLDIERS

A period of business depression is  
an insidious onslaught on the minds  
and general welfare of the public and  
should be met by a united battle  
front. Shoulder to shoulder, the far-  
mer, the townsman, the manufactur-  
er must stand, in order to vanquish  
as speedily as possible the gloom  
which has threatened the country.

Every province holds a sector along  
the Canadian battle line, and like loyal  
soldiers we must give our best ef-  
forts to fighting for the triumph of  
Alberta. First, we lift our own town  
above depression, then our province  
and the conquering wave will the  
more quickly spread.

In order to get the quickest re-  
action from our every dollar, we should  
spend that dollar at home. By spend-  
ing locally our dollar is returned to us  
and we get increased value. By buy-  
ing within the province, we are  
strengthening our own sector of the  
battle line, and helping ourselves.

The men who are carrying on man-  
ufacturing industries within the pro-  
vince are heavy supporters of provin-  
cial revenue. Their payrolls supply  
the purchasers of our butter, eggs,  
meat and flour. As the payrolls in-  
crease, so does the purchasing power  
of the province increase. More money  
in circulation means more money for  
everyone.

We can strengthen the buying power  
of our local business men by buy-  
ing at home. We can strengthen the  
payrolls of Alberta factories, by buy-  
ing the innumerable Alberta made  
products. It is the quickest and sur-  
est way of helping ourselves.

No one enjoys dull times. No one  
enjoys present evidences of unemploy-  
ment, quite aside from the fact that  
the unemployed are a cost to individ-  
uals and to the country.

The most direct way in which we  
may do our share in promoting gen-  
eral industry and employment, is to  
spend every dollar possible in such a  
way that it will directly benefit the  
people of our own province.

Outlook Not Brilliant, But Not as  
Fluctuating as Past Year

It is cheering news to a wheat  
country to learn that the carry-over  
of wheat in Canada will be less by  
10,000,000 bushels than at the end of  
the previous crop year. Since early  
in May there has been a steady move-  
ment of grain down the Lakes, the  
railway yards at the head of the  
Lakes and the elevators at the other  
end are emptying.

The wheat pool heads claim that  
prairie governments will sustain no  
loss through guarantee of the pools.  
The guarantee was in respect to last  
year's crop and the crop year ended  
on July 15, with the governments'  
guarantee uncalled.

It is expected that this year's crop  
will be more than that of last year.  
So it is doubtful if any very greatly  
improved prices will be reached. But  
with U.S. and Argentine having less-  
ened production, there is every sign  
that Canadian wheat will be less at  
the mercy of fluctuations. If it can  
be sold quickly, it will relieve a cer-  
tain amount of tension.

Prospects are that Canada this year  
will advance into second place among  
the gold producing countries of the  
world. South Africa held first place  
and the United States second, but  
present progress in the mines of Can-  
ada make it appear likely that the  
1929 gold production of \$40,000,000  
will this year be increased by fifty  
per cent.

## BRITISH WHEAT POOL

When the Imperial Conference  
meets, it will be called upon to con-  
sider a British State-organized Im-  
port Board, to deal with wheat im-  
ports.

It is expected that it will be oppo-  
sed by British millers and importers,  
who do not welcome the idea of being  
under the thumb of a statutory board  
able to influence prices and eliminate  
middlemen.

If an import board empowered to  
purchase wheat in bulk from Canada  
and other countries should be set up,  
it would affect adversely the milling  
industry which is now in the hands  
of a few firms.

## ALBERTA HIGHWAYS

Unusual Progress Being Made This  
Summer in Grading and Graveling

Contracts have already been award-  
ed for a further development of Al-  
berta highways to include 235 miles  
of grading and 310 miles of gravel-  
ing.

The new policy of financing the  
building of secondary highways, by  
which the municipalities repay the  
government over a term of years, has  
resulted in several enterprises, one of  
the most important being the Sun-  
shine Trail from Lethbridge to the  
Calgary-Macleod main highway. Over  
100 miles of this are being pushed  
under agreement with the municipal-  
ities.

Another secondary road now being  
surveyed is Lethbridge-Cardston,  
while in the north Gull Lake and Syl-  
van Lake are being linked up. The  
graveling of the graded road from  
Pincher to Waterton will be finished  
by the end of August.

The Calgary-Medicine Hat highway  
is being graded and gravelled. Five  
railroad crossings will be eliminated  
east of Bassano. This work is ex-  
tending to the Saskatchewan bound-  
ary.

A similar program is under way in  
northern Alberta.

Following a shot of nitro-glycerine  
Homestead oil well increased produc-  
tion to 150 barrels per day. This well  
adjoins East Crest and looks very  
promising.

Mercury oil wells look very prom-  
ising and big production may be  
looked for one of these days. Mercury  
wells, seven in number, are located  
near the old Record well, drilled by  
the late Addison McPherson, one mile  
south of Hartell. Mercury No. 1 was  
drilled with standard outfit to a depth  
of 4570 feet, and meanwhile a change  
is being made to continue drilling  
with rotary drill. Officials look for a  
good producer. Mercury No. 2 is  
producing oil and is now being clean-  
ed with a view to bigger production.  
No. 3 well has been showing an in-  
crease in production doing between  
200 and 223 barrels daily. Wells  
No. 4 and 5 are being drilled and  
crews are rigging up to drill wells 6  
and 7. The same company has the  
contract for drilling Miracle well  
with rotary. The depth of this well  
is 4700 feet.

## FOR SALE

BINDER—McCormack Deering Power  
Binder in good shape. Phone 2614.  
July 17-21 p.

BOARS—Pure bred Duroc Jersey Boars  
—Dorch Bros. Vulcan. Phone R2306

GRAVEL—Gravel delivered any place  
apply W. E. Roebuck, Vulcan,  
phone R1815. July 3-11-e

FOR SALE—Good Milk Cow, to  
freshen in September. Bob Wilson,  
Box 322.

TOOLS—Good Carpenter Tools for  
sale cheap. Apply at this office.

NEW POTATOES FOR SALE—Ap-  
ply phone 2311.

FOR SALE—Push Binder and Header  
combined, McCormick-Deering manu-  
facture, first class mechanical condition  
Apply Geo. Todd, Phone 1006. J31-31c

FOR SALE—Quantity of Good Oats  
at 40¢ per bushel. Apply Dave  
Brooks, phone 54 or 2004. 3-p

FOR SALE—Threshing Outfit: Min-  
neapolis Engine and Case Separ-  
ator, bunk car, cook car, 2 Water  
Tanks, everything complete. Phone  
17, Vulcan. July 31-3-p

## WANTED

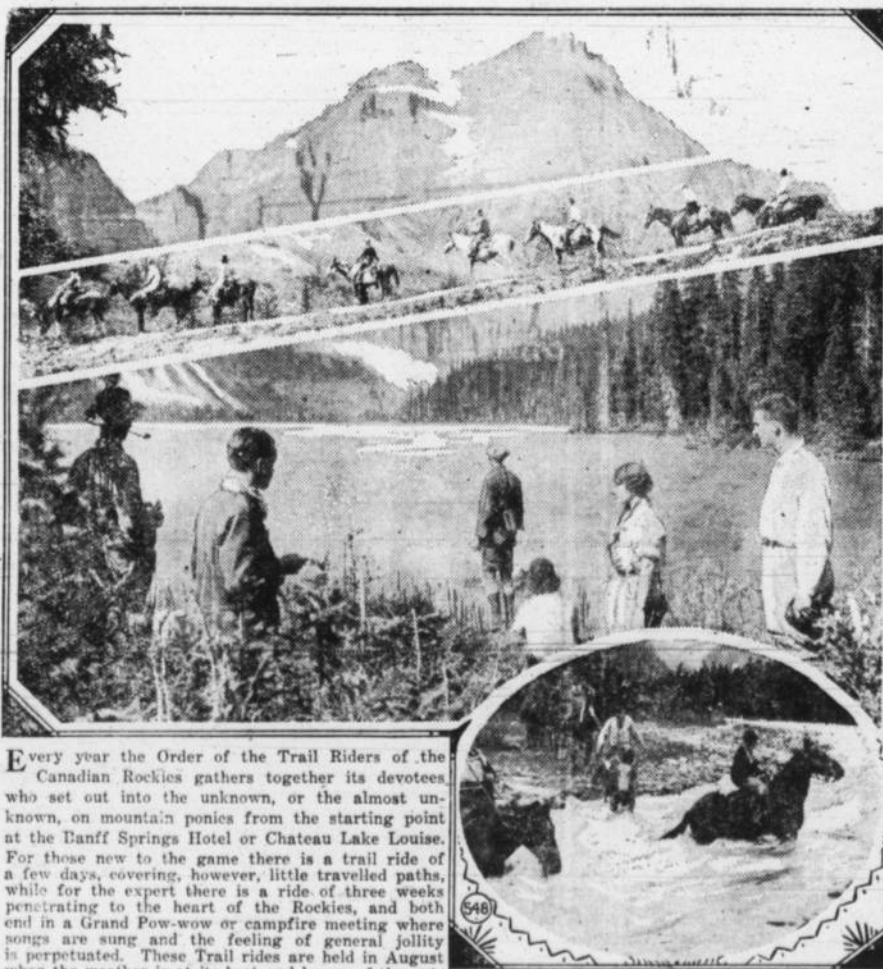

HEMSTITCHING AND PICOTING—  
Hemstitching and picot edging  
promptly done, all materials, ten  
cents per yard, silk thread extra;  
mail orders a specialty. Mrs. A.M.  
Henderson, 1602 Broadview Road,  
Calgary, Alta.

WANTED—Party would like to get  
in touch with person having a  
horse grain binder for sale. Phone  
4016, Vulcan. F. M. Maiden.

## OIL NEWS

A new record for the production of  
Turner Valley oil wells was establish-  
ed during June when deliveries to the  
Imperial and Royal refineries at Cal-  
gary totalled 111,960 barrels, or an  
increase of nearly 6,000 barrels over  
the previous record month of March.

## Breaking New Trails in the Rockies

Every year the Order of the Trail Riders of the  
Canadian Rockies gathers together its devotees  
who set out into the unknown, or the almost un-  
known, on mountain ponies from the starting point  
at the Danff Springs Hotel or Chateau Lake Louise.  
For those new to the game there is a trail ride of  
a few days, covering, however, little travelled paths,  
while for the expert there is a ride of three weeks  
penetrating to the heart of the Rockies, and both  
end in a Grand Pow-wow or campfire meeting where  
songs are sung and the feeling of general jollity  
is perpetuated. These Trail rides are held in August  
when the weather is at its best and lovers of the out-  
doors gain an experience which, even if they never  
repeat it, will furnish them with memories and  
stories for a life-time. Every year new trails are  
broken, the one last year being over Gibbon Pass,  
named after the founder of the Order. The rides  
attract travellers from every part of the continent

and from Europe, and some 1,500 of them are now  
enrolled in the Order.  
Lay-out shows riders passing through Gibbon  
Pass, taking a rest at Shadow Lake with Mount Ball  
in the background, and fording an arm of the Lake  
of Hanging Glaciers.

# SPECIALS

FOR THE WEEK

Men's Bib Overalls in popular make of heavy quality  
Blue Denim, Sizes 35, 40, 42 and 44. Regular Values up  
to \$2.50. Special Lot to clear at **\$1.65**
